Declaration of Conformance

February 8, 2024

Certification A – Bosch Automotive Service Solutions LLC (“Bosch”)

Declaration of Conformance:

ANSI/AGSC/AGRSS 005-2022 requires those engaged in automotive glass replacement and/or recalibration/calibration services shall only use equipment specifically designed and purposed for recalibration/calibration when recalibration/calibration of the ADAS (features) is required by the vehicle manufacturer.

Bosch’s Response:

Bosch’s calibration/recalibration system is manufactured to Bosch’s own documented internal quality control process. Each internal quality control process utilizes equipment that is applicable and compatible with both the software and hardware associated with performing the appropriate calibration/recalibration.

Bosch’s calibration/recalibration system (including software and hardware), when operated as designed and as directed, meets and/or exceeds the associated original vehicle manufacturer’s documented calibration/recalibration requirements.

Certification B - Bosch’s Declaration of Standard Conformance:

To Bosch’s reasonable knowledge, as of the date of the last signature below in the signature line, Bosch is in compliance with the ANSI/AGSC/AGRSS 005-2022 Standard set forth by the Auto Glass Safety Council and approved by ANSI.

Miscellaneous:

This Declaration of Conformance is provided as is and Bosch provides no representation or warranty as to its contents, including but not limited to any express or implied warranty including merchantability or fitness for a particular purpose. Loss of profit or revenue, loss of goodwill, or consequential, indirect, incidental, special, exemplary, punitive, or enhanced damages arising out of or relating to this Declaration of Conformance are expressly excluded.
BOSCH, ITS AFFILIATES, AND THEIR RESPECTIVE SHAREHOLDERS, DIRECTORS, OFFICERS, EMPLOYEES, REPRESENTATIVES, SUBCONTRACTORS, AND AGENTS SHALL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, CONSEQUENTIAL, EXEMPLARY, SPECIAL, INCIDENTAL, OR PUNITIVE DAMAGES, INCLUDING, WITHOUT LIMITATION, LOSS OF USE, LOSS OF BUSINESS, REVENUE, PROFIT, OR GOODWILL, DOWNTIME COSTS, DAMAGE TO ASSOCIATED EQUIPMENT, COST OF SUBSTITUTE GOODS, FACILITIES, OR SERVICES, OR CLAIMS OF CUSTOMER'S CUSTOMERS FOR SUCH DAMAGES, OR OTHER COMMERCIAL OR ECONOMIC DAMAGES OR COSTS, THAT MAY ARISE OUT OF, IN CONJUNCTION WITH, OR RELATE TO THE CONTENTS OF THIS DECLARATION OF CONFORMANCE, UNDER ANY LEGAL THEORY OR CAUSE OF ACTION, INCLUDING, WITHOUT LIMITATION, TORT, CONTRACT, WARRANTY, STRICT LIABILITY, OR FEDERAL, STATE, OR LOCAL STATUTE, ORDINANCE, OR REGULATION.

*Disclaimer* - While Bosch recognizes that the ADAS Repair industry has adopted the terminology “calibration/recalibration system” to describe the equipment sold by Bosch and others, it is more accurate to define this equipment as “ADAS Target Positioning Systems” that enable an ADAS calibration to be performed on particular vehicles. It is important to note that it is the actual vehicle that performs the calibration once our Target Positioning System has informed the vehicle (through communication protocol) that the targets have been positioned as defined by the vehicle OEM.
